Here comes the Evolution of

The Spiritual Rock Music from *Japan*

KIRILOLA, formerly member of eX-Girl, presents “The Celestial Ground MUSE”, based on Ancient Japanese Mysticism. She has a amazing voice surprisingly!

Description of the Band : KIRILOLA will perform with:

Eccentric piano genius “Hoppy Kamiyama”.

Avant-garde cellist, electric drill & saw manipulator “Hiromichi Sakamoto”.

Barbarous and tender percussionist “Youichi Okabe”.

Japanese Classical musician “Kizan Kawamura” on Shakuhachi.

Her voice purifies the body and soul by using words truly from Ancient Japanese "Kotodama"(Word Spirit). Her chanting is often worldly and will transport you to the depths of your heart & soul.

Now Japan stands at the crossroad after the devastating earthquake and tsunami.

KIRILOLA is eager to find out different ways for human beings to survive meaningfully on the earth through her own music & peace messages.
